Title: Survey of Domestic and Foreign Repair Stations.

OMB Control Number: 2120-0617.

Type of Request: Extension of currently approved collection.

Affected Public: 449 Repair Stations.

Abstract: The FAA plans to conduct a survey of domestic and foreign repair stations. The House Committee on Transportation and Infrastructure has proposed Part 145 legislation "Aircraft Repair Stations Safety Act of 1997" (and sister bill being introduced in the Senate) to revoke the 1998 amendment to FAR Part 145, thereby subjecting foreign repair stations to the same requirements as domestic repair stations. In order to address issues raised by the Committee, the FAA plans to conduct a study which will include an economic analysis of domestic and foreign repair stations to determine whether maintenance jobs are being moved overseas at a more rapid rate than work is coming into the U.S. The survey will provide real data to be used in the analysis.

Annual Estimated Burden Hours: 898 hours.

Addressee: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention FAA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
